Antiseptic Germicidal Spray

Antiseptic Germicidal Spray is an antiseptic applied on skin, which is infected or is likely to get infected. It works by slowly releasing iodine which kills or prevents the growth of infectious microorganisms.

Burn Relief Spray

It is a common local anesthesia, used topically to relieve itching, burning and pain from skin inflammations. It works by blocking nerve signals in body. It is used to reduce pain or discomfort caused by skin irritations such as sunburn, insect bites, minor cuts, scratches and burns.

Delay Spray For Men

An anesthetic spray for the penis, used five minutes before sex, helps men delay orgasm six times longer than usual

Before using the spray, the 54 heterosexual men in the study ejaculated, on average, one minute after vaginal penetration.

The men or their partners used a stopwatch to measure the time from vaginal penetration to ejaculation

Deodrant Spray

Deodrant sprays are a great way to help girls and guys feel fresh without the overpowering element of a perfume or cologne. For men, apply the body spray on your chest and neck, and under your armpits. For women, apply the body spray on your pulse points, clothes and hair.
