PREGNANCY KIT hCG Card Test

Intended Use:

A rapid one step visual test for the qualitative detection of Human Chorionic Gonadotropin (hCG) in urine specimen. Anti sera for hCG dispensed on membranes. This test kit is intended for professional and laboratory use only. Widely used in hospitals, pathology labs, doctor's offices and family planning centers.

Test Procedure:

Read Pack Insert before use.

MALARIA TEST KIT

Intended Use:

Malaria Pf/Pan (Pv,Pm,Po) 3 Line Antigen Test is an immunochromatographic bases assay for the qualitative detection of Plasmodium lactate dehydrogenase (PAN LDH) specific to Malaria Pv,Pm,Po and HRP II, pLDH antigens specific to Pf in human blood

Test Procedure:

Read Pack Insert before use.

Interpretation of Test Results:

Negative: If only one Red line (Control Line) appears in the result area, interpret the result as negative. This shows that the specimen does not contain antigens to Malaria.

Syphilis Rapid Card Test

For in vitro diagnostic use only
